Sandy Bay Townhouse

The painted white walls and ceilings throughout, with white blinds and dark carpets make quite an impact on entry to this quality townhouse built in the 80's. Positioned on a sunny block with loads of sun, it would be a pleasure to work in the kitchen and soak up the view from here or from one of the little balconies. Both bedrooms have built ins and, aside from the whitegoods provided there is a large garage, and two huge dry storage rooms. Don't delay on this one. Strictly no pets. Available now..
